There is a Sharp Difference.

ES-704DW-BL

With the Sharp Double Washer's enhanced features,

you can
save
up to
50%
on time
and **effort**

Twice the tub means twice the function

With the Sharp Double Washer, you can do two different kinds of wash all at the same time with its two tubs—definitely doubles its function.

Wash White and Colored Clothes

Wash and Rinse

Delicate and Heavy Wash
Towels and Baby Clothes / Curtains and Rags

Cylindrical is more practical

Washing machines with this type of design can achieve a higher level of cleaning efficiency compared to other washing machines with a square body. This is because the design follows the whirl-cycle movement, so there's less obstruction to the movement of the clothes.

One motor to power them all

Sharp Double Washer utilizes only one motor to power the operation of two tubs simultaneously.
