OUR BRAND. OUR PRIDE.

Up to 10 million dust mites may be found in one mattress.

Source: International Hygiene Home Truths Study, The Hygiene Council, 2014

Eliminate dust mite allergens on your bed with the

PLASMACLUSTER MITE CATCHER

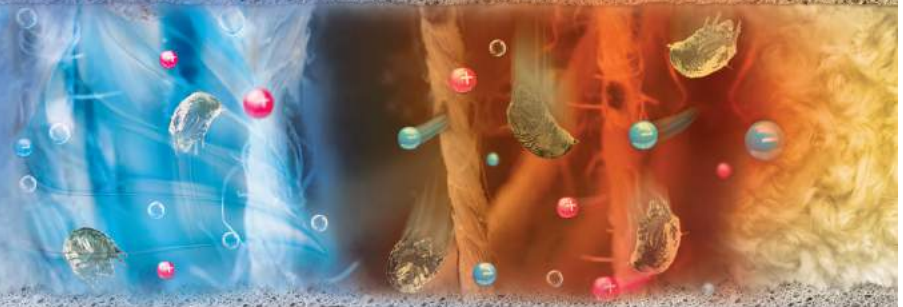

Heat & Clean Function

EC-HX100P-S

Regular bed cleaners and vacuum cleaners can only suction dust and other harmful particles, but they cannot effectively remove live dust mites, no matter how powerful they are. Additionally, the habit of airing out your mattress in the sun does nothing to sanitize your bed. That's why you need the Plasmacluster Mite Catcher.

Harnessing the power of Heat & Clean, Plasmacluster Ion Technology and a powerful Cyclone Suction to boot, the Mite Catcher is the most effective way to get rid of 99% of dust mites on your mattress, for an allergy- and asthma-free sleep.

What you need to know about dust mites:

- Dust mites are all over your bed, pillow, carpet, and sofa
- They are invisible to the naked eye
- They can live up to 2 to 3 months
- They live on dead skin cells
- Female dust mite spawns up to 120 eggs in a lifetime
- They produce up to 5000 pieces of excrement
- They cling to fibers on textile which is how they resist being vacuumed
- Their remains and excrements are allergens.
- Changing your sheets won't make you safe from dust mites.

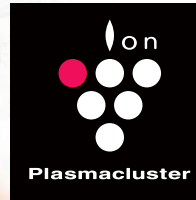

American Lung Association
University of Kentucky Entomology

Cyclone Suction

- powerful centrifugal suction
- captures up to 99% of dust mites and other particles

Up to
60°C
heat

- weakens dust mites so they can no longer cling onto the fibers
- penetrates the mattress to reduce odors from within

- releases positive & negative ions
- deactivates bacteria & microbes on the bed
- reduces odors caused by sweat & other bodily fluids

PLASMACLUSTER MITE CATCHER

Heat & Clean Function

PORTABLE

USED FOR BEDS,
PILLOWS, SOFAS,
CARPETS

EASY TO CLEAN
& STORE

WASHABLE
WITH WATER
AND MILD SOAP

Sharp Plasmacluster Mite Catcher		Model: EC-HX100P-S			
Power Consumption (W)	720W	Cyclonic Technology	Centrifugal Separation Cyclone	Dust Capacity (L)	0.1L
Suction Power (Air Watts)	Peak 130AW	Cleaning Technology	Plasmacluster Ion Technology & Heat Centrifugal Cyclone	Cord Length (M)	5 M
	Normal 60AW			Dimensions (W x H x D) (mm)	304 x 254 x 405
Rotation speed of brush	2,000 times/minute	Filter type	Mesh Filter	Weight (KG)	2.7 Kg
Operation Noise Level (dB)	67 - 78	Cleaner Head	Power head with beating rubber blade	Accessories	Cleaner Stand
